### SUPPORT ACCESSORIES

#### STEEL ANCHOR

| Sr. No. | Part No. | Description                           | HSCODE   | Price/Pc | Box Qty. |                                                                                     |
|---------|----------|---------------------------------------|----------|----------|----------|-------------------------------------------------------------------------------------|
| 1       | 129088   | Steel anchor, M8 x 40 mm, galvanised  | 73181900 | 60       | 100      |  |
| 2       | 129089   | Steel anchor, M10 x 40 mm, galvanised | 73181900 | 61       | 100      |                                                                                     |
| 3       | 129090   | Steel anchor, M12 x 50 mm, galvanised | 73181900 | 98       | 50       |                                                                                     |
| 4       | 152779   | Wedge anchor M8 X 30 mm, galvanised   | 73181900 | 20       | 100      |                                                                                     |
| 5       | 152780   | Wedge anchor M10 X 40 mm, galvanised  | 73181900 | 30       | 100      |                                                                                     |
| 6       | 152781   | Wedge anchor M12 X 50 mm, galvanised  | 73181900 | 56       | 50       |                                                                                     |

#### Rail nut

| Sr. No. | Part No. | Description                                                                        | HSCODE   | Price/Pc | Box Qty. |                                                                                       |
|---------|----------|------------------------------------------------------------------------------------|----------|----------|----------|---------------------------------------------------------------------------------------|
| 1       | 118040   | MPC-Rail nut M8, 33 x 23 x 6 mm for MPC-Support channels 38/24-40/120, galvanised  | 73181691 | 29       | 100      |  |
| 2       | 117968   | MPC-Rail nut M10, 33 x 23 x 6 mm for MPC-Support channels 38/24-40/120, galvanised | 73181691 | 32       | 100      |                                                                                       |
| 3       | 117986   | MPC-Rail nut M12, 33 x 23 x 6 mm for MPC-Support channels 38/24-40/120, galvanised | 73181691 | 43       | 100      |                                                                                       |

#### Clamp bracket

| Sr. No. | Part No. | Description                                                                           | HSCODE   | Price/Pc | Box Qty. |                                                                                       |
|---------|----------|---------------------------------------------------------------------------------------|----------|----------|----------|---------------------------------------------------------------------------------------|
| 1       | 114503   | MPC-Clamp bracket M10 for MPC-Support channels 27/18-28/30, galvanised                | 73269060 | 42       | 100      |  |
| 2       | 114450   | MPC-Clamp bracket M10 for MPC-Support channels 38/24, 38/40, 38/48, 38/80, galvanised | 73269060 | 37       | 100      |                                                                                       |

## Hexahead bolt

| Sr. No. | Part No. | Description                                          | HSCODE   | Price/Pc | Box Qty. |                                                                                      |
|---------|----------|------------------------------------------------------|----------|----------|----------|--------------------------------------------------------------------------------------|
| 1       | 105781   | Hexagon head bolt, DIN 933, M8 x 35 mm, galvanised   | 73181581 | 18       | 100      |  |
| 2       | 105797   | Hexagon head bolt, DIN 933, M8 x 60 mm, galvanised   | 73181581 | 28       | 100      |                                                                                      |
| 3       | 105802   | Hexagon head bolt, DIN 933, M8 x 85 mm, galvanised   | 73181581 | 33       | 100      |                                                                                      |
| 4       | 105763   | Hexagon head bolt, DIN 933, M8 x 20 mm, galvanised   | 73181581 | 13       | 100      |                                                                                      |
| 5       | 105770   | Hexagon head bolt, DIN 933, M8 x 25 mm, galvanised   | 73181581 | 14       | 100      |                                                                                      |
| 6       | 105585   | Hexagon head bolt, DIN 933, M10 x 35 mm, galvanised  | 73181581 | 28       | 100      |                                                                                      |
| 7       | 105605   | Hexagon head bolt, DIN 933, M10 x 60 mm, galvanised  | 73181581 | 42       | 100      |                                                                                      |
| 8       | 105609   | Hexagon head bolt, DIN 933, M10 x 80 mm, galvanised  | 73181581 | 55       | 100      |                                                                                      |
| 9       | 105545   | Hexagon head bolt, DIN 933, M10 x 100 mm, galvanised | 73181581 | 63       | 100      |                                                                                      |
| 10      | 105547   | Hexagon head bolt, DIN 933, M10 x 120 mm, galvanised | 73181581 | 111      | 100      |                                                                                      |

## Hexagonal nut
